MEMORANDUM

FOR THE MEMBERS OF THE TECHNICAL REVIEW COMMITTEE (TRC) FOR THE
INSTALLATION RESTORATION PROGRAM AT NAVAL WEAPONS INDUSTRIAL RESERVE
PLANT (NWIRP) CALVERTON, NEW YORK

Enclosed is a copy of the U.S. Navy's Final RCRA Facility Assessment
(RFA) Workplan Addendum for additional fieldwork which is to be
performed at NWIRP Calverton, NY. This document is meant to be an
addendum to the original RFA Workplan submitted in January 1993.

This final report incorporates the Navy's plan of action for
additional RFA work that was proposed at TRC Meeting #4 held on June
6, 1995. All appropriate comments generated during the meeting
regarding the RFA work have been incorporated.

Implementation of the workplan is scheduled to begin during early to
mid November 1995. Therefore, any additional comments regarding this
Workplan Addendum must be submitted prior to commencement of the
fieldwork in order to be incorporated.

As explained during the last TRC meeting, the reason for the
accelerated schedule is to determine whether the areas that are to be
investigated can be turned over to the Town of Riverhead after closure
of the facility in February 1996 or retained by the Navy for further
remedial action.

If you have any questions or require additional information, please
give me a call at (610) 595-0567, extension 163. If you have any
comments, you can fax them to me at (610) 595-0555.

Thank you for your continued participation in NWIRP Calverton's IR
program.

Sincerely,

JAMES L. COLTER
Remedial Project Manager
by direction of the Commanding Officer
